

Person-Centered *Community Based*

Person-Centered Services
Designed to Support You

The Supportive Home Services (SHS) program is designed to provide the routine and emergency supports necessary to prevent the need for an out of home placement.

Your Circle of Support

The SHS team will work closely with individuals in the program to address specific needs and ultimately create a stable and safe environment. Through in-home and community based services, the SHS program offers a well-coordinated spectrum of services designed to ensure wellness.

Wraparound Community Services
are provided by
Cerebral Palsy of Ulster County,
Inspire of Orange County,
& United Cerebral Palsy of Nassau County.

SUPPORTIVE HOME SERVICES

Person-Centered *Community Based*

Individualized Support

Individuals within the Supportive Home Services program will partner with the SHS team to accomplish personalized goals. The individual and their circle of support will develop these goals collaboratively.

The ISP will be carefully monitored and evaluated to ensure that individuals in the program and their caregivers will have the supports needed to live a positive, productive life.

Intensive services will be provided through a core team of dedicated professionals and community supports.

Care, recreation and respite services will be provided to reduce stress and prevent crisis. The team will also provide training to individuals in the program and caretakers.
